 Zero cavity

zerO cavity wishes you a
HAPPY DUSSEHRA

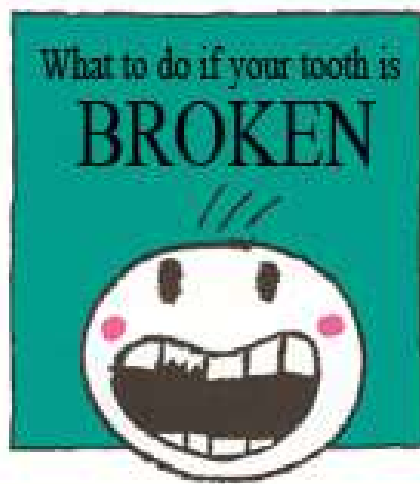

Page 2: What to do if your tooth is broken?

Page 3: What to do if your tooth gets knocked out?

Page 4: Case of the month.

Page 5: They say it we love it.

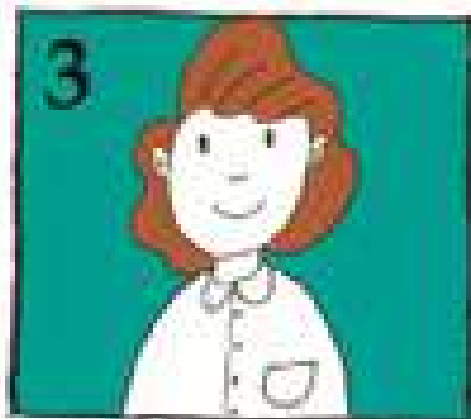

STAY TUNED FOR CHILDREN'S DAY SPECIAL!!!!

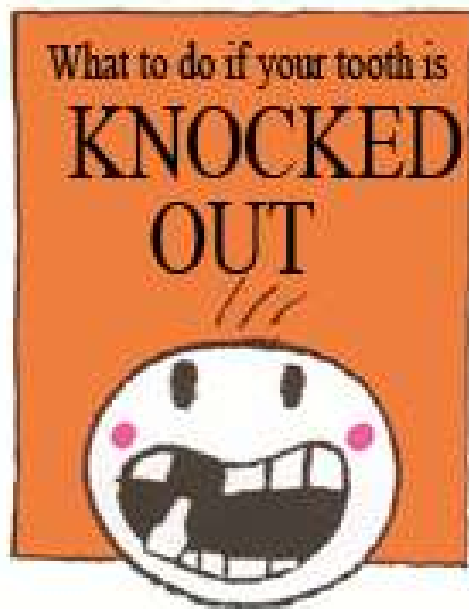

Find the piece of the broken tooth

It is possible to glue the piece again

For this to be possible visit your dentist immediately

1
Find the tooth

2
Hold the tooth by the
crown and not root

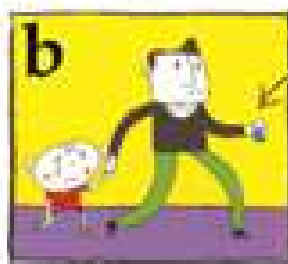

3
Rinse under cold
running water

4. Follow one of the following alternatives

a
Put the tooth
back in its place

b
Place the tooth in
a cup of milk or
saline

c
When milk is not
available, place the
tooth between gum and
cheeks

5
Visit dentist immediately

Case of the month..

Drastic transformation in patient's smile after removal of cavities and restoring it with tooth colour fillings

They say it, we love it!

I had done root cleaning, bleaching and filling treatment for my front half crack teeth at zero cavity clinic. My teeth was totally damaged and discolored because of root infection but after this treatment, I can't even find out which was my damaged teeth. result is amazing, it was great and painless experience. Dr. Dhruti did a great job. The staff was very friendly and helpful they made me feel like family... would highly recommend to anyone.

VRUSHALI SONAWANE.
